SHAKER SCREEN SUPPLY SERVICE

OPTIMIZE YOUR FLUID PERFORMANCE

SHAKER SCREEN SUPPLY SERVICE. EXCEPTIONAL CUSTOMER SERVICE.

As the leading dedicated provider of drilling and completion fluids solutions around the globe, you can trust Newpark to be your supplier of quality shale shaker screens.

After all, with our deep-domain expertise and experience we understand what's most important to assure your fluids quality and keep operations running smoothly.

From durability and quality that you can rely on – to a flexible choice of premium and economy screens to fit the most popular shale shakers – our selection of screens has been carefully curated to maximize your investment. Bringing you optimum fluids treatment performance at some of the most competitive prices on the market.

Any region. Any screen. On time. Every time.

Just like with our fluids solutions, we can supply the right screen, for the right job. Fast. Our global supply network means we are always on hand to keep your supply of high-quality shaker screens well stocked. Plus, we'll always find new ways to help you save on your shipping costs and paperwork – like consolidating screens and fluid orders into as few shipments as possible.

Outstanding service. Competitive prices.

Customer service is what we do best. So, when you choose us, you're not just getting a shaker screen. You're getting global reach and expert local support. Streamlined procurement and competitive prices due to the expertise of our product sourcing team. With the same fast delivery and smooth logistics as you get with our fluids solutions. That's what we call the Newpark Service Advantage.

More service than just a screen supplier.

Improving fluids performance is what we do best. By choosing Newpark, you're getting the dedicated support of our team of fluid experts, decades of drilling fluid solutions experience and a network of global support to help you get the most out of your screen. The level of service you won't find elsewhere.
