

## PRODUCT DESCRIPTION

EvoCon® fluid conditioner is a water-based fluid stabilizer used as a primary component of the Evolution® fluid system, Newpark's proprietary high-performance water-based drilling fluid technology. The polymer-based, clay-free Evolution fluid system is designed specifically for drilling unconventional horizontal wells.

## BENEFITS

In the Evolution system, EvoCon fluid conditioner optimizes the performance of both EvoVis® viscosifier and EvoLube® DPE performance enhancer.

## APPLICATION

The product should be used in the system's initial formulation, with the concentrations maintained consistently in the system.

## TREATMENT RECOMMENDATION

EvoCon fluid conditioner is used in concentrations ranging from 0.25-3.0 lb/bbl.

## TYPICAL PHYSICAL PROPERTIES

Appearance..... Light amber liquid  
Flash Point..... 545°F (285°C)  
Specific Gravity..... 1.0-1.1

## HANDLING AND STORAGE

EvoCon conditioner is slippery. Use caution around spills. Avoid inhalation of fumes. Avoid contact with skin and eyes. Keep containers tightly closed in a dry, cool, and well-ventilated area. Use appropriate hygiene, clothing and personal protective equipment suitable for work being done. Review the SDS thoroughly before using this product.

## PACKAGING

EvoCon fluid conditioner is available in 5-gallon (19-liter) pails, 55-gallon (208) drums and 275 gallon (1,041 liter) totes.
